EDUCATION

COER University   **Aug 2022 - July 2025**
Bachelor's in Computer Application - CGPA - 9.24   *Roorkee, Uttrakhand*

WORK EXPERIENCE

NullClass ⎘   **July 2024 – Aug 2024**
FullStack Developer Intern   *Remote*

- Developed a secure "Forgot Password" feature, enabling users to reset their password via email or phone verification in the existing website which I have made during the training of the internship.
- Implemented multi-language support for the website, allowing users to select from six languages, with specific verification processes in the same existing Stack Overflow website.

Oasis-Infobyte ⎘   **Aug 2023 – Sep 2023**
Frontend Developer Intern   *Remote*

- Developed a Personal Portfolio Websites using HTML, CSS and Javascript, showcasing a variety of samp;es and skills, and integrating a resume section.
- Implemented a temperature Converter application that allows users to convert temperatures between Fahrenheit and Celsius using HTML, CSS and JavaScript.
- Created a fully functional calculator with an interactive interface to perform basic mathematical operations using HTML, CSS and JavaScript.

PROJECTS

QuickBite ⎘ | ReactJS, ReactRouterDom, CSS

- QuickBite is a food delivery platform aimed at providing users with a seamless and convenient way to order food from a variety of restaurants. Using modern web development tools such as ReactJS, CSS, and ReactRouterDom.
- The platform features a dynamic homepage that highlights featured restaurants and popular dishes. Each restaurant is showcased with relevant details, including ratings and location, and users can easily browse through menus, add items to their cart.

Stack Overflow ⎘ | MongoDB, ReactJS, ExpressJS, Nodejs, CSS

- Developed a comprehensive Q/A platform using the MERN stack and integrated a robust search and filter functionality for efficient Q/A retrieval.
- Built a scalable backend with Node.js and Express, and utilized MongoDB for efficient data storage and retrieval, optimizing database queries and operations.

SKILLS
